

TANZANIA ATOMIC ENERGY COMMISSION

REGIONAL TRAINING COURSE ON METHOD VALIDATION, QUALITY ASSURANCE AND QUALITY CONTROL IN ALPHA-PARTICLE AND GAMMA-RAY SPECTROMETRY ARUSHA, NEW SAFARI HOTEL FROM 06-10 NOVEMBER, 2017

Deputy Permanent Secretary for the Ministry of Education, Science and Technology **Prof. James Mdoe** sitting center, Acting Director General for Tanzania Atomic Energy Commission **Brigadier General, Fulgence Simon Msafiri (ndc)** (second right) in a group photo with participants for the IAEA African member states during the Official inauguration of the Regional Training Course on method validation, quality assurance and quality control in alpha-particle and gamma-ray spectrometry held in Arusha at new safari hotel from 06-11 November, 2017.

34 participants from 27 Countries such as **Algeria, Angola, Botswana, Cameroon, Democratic Republic of Congo, Cote d'Ivoire, Djibouti, Egypt, Ethiopia, Gabon, Ghana, Kenya, Lesotho, Madagascar, Malawi, Mauritius, Morocco, Namibia, Nigeria, Senegal, South Africa, Sudan, Tunisia, Zambia, Zimbabwe** and host Country **Tanzania** attending the training.

Main purpose of the training course is to get an overview of the requirements of ISO/IEC 17025 and advanced theoretical and hands on training on method validation, uncertainty estimation, measurement traceability, quality assurance and quality control (QA/QC) in alpha-particle and gamma-ray spectrometry. After this training the participants will be able to share the acquired knowledge to relevant stakeholders in their home countries, their organizations and members of national projects teams.

Participants during the training session

Deputy Permanent Secretary for Ministry of Education, Science and Technology **Prof. James Mdoe** delivering his key speech to officiate the opening of the Regional Training Course on method validation, quality assurance and quality control in alpha-particle and gamma-ray spectrometry held in Arusha from 06-11 November, 2017.

Acting Director General for Tanzania Atomic Energy Commission **Brigdier General, Fulgence Simon Msafiri (ndc)** addressing the participants (not in the picture) during the opening of the Regional Training Course on method validation, quality assurance and quality control in alpha-particle and gamma-ray spectrometry held in Arusha at new safari hotel from 06-11 November, 2017.
